

I am writing to let you know that K-Love radio serves me 24 hours a day. I listen to this station both on my home radio, car radio and through the internet both upstairs at home on my PC and at work. This radio station serves uplifting and positive messages and music. Everyday, this station keeps me going, comforts me when I've had a bad day and blesses everyone who listens. I am one of the supporters of this station as I send in a monthly donation to keep K-Love on the air. When I travel I tune into K-Love and listen no matter what city or state I'm in. My sons listen in Texas, my family listens in California. All the content is family-friendly and safe. No negative or abusive language or political/commercial content is allowed.

Do not change to allow an LPFM broadcaster providing other programming. Keep K-Love the way it is - serving the public interest in a positive and American friendly way. Thank you.
